JAMIE STERN
FABRIC

GRANULAR

Jamie Stern's Granular is a fabric built for touch, woven from a blend of linen and jute and prized for the organic texture only authentic natural fibers can offer. No two yarns are ever quite the same — expect subtle variation in weave throughout, from thicker slubs to shifts in tone.

Granular comes in a considered gradient of colors, from soft, imbued neutrals to rich, saturated tones, letting every space find its own depth of character.
