

HONEYCOMB

Jamie Stern's Honeycomb is a luxurious upholstery leather inspired by the symmetry and organic beauty of beehives. The leather features a tight hexagon pattern which subtly juxtaposes its waxy, pure aniline finish and mottled coloration. The final result seamlessly blends the rich tactility of pull-up leather with unparalleled embossing precision to create a buzzworthy upholstery material suitable for all manner of projects. Available in two classic colorways – Caramel and Toffee – Honeycomb serves as a reminder of both the vibrancy found in the natural world as well as the timelessness of manmade artisan products.

PERFORMANCE

Honeycomb is an embossed leather with a pure aniline finish which will continue to breathe, age and develop a patina over time. Eventual scratches and other natural distressings will only add to the organic quality and sophistication of this leather.

APPLICATIONS

Suitable for upholstery in Hospitality, Corporate and Residential applications.

FLAME RESISTANCE

Available upon request.

CARE/CLEANING

Use damp cloth to remove dust on a regular basis. Wipe spills and markings as quickly as possible and clean with a damp cloth using a non-alkaline soap. Never use saddle soap, solvent or abrasives.
