

KENASTON 1957

Kenaston 1957 is the grounding fabric of Jamie Stern's Twin Palms Collection. Its understated elegance is designed to complement the bold geometry of RatPack and the striking stripes of Reina Street. Its mélange texture reflects the desert's changing light, from crisp morning horizons to glowing twilight skies - bright, expansive, and serene. Perfect for larger seating or as a refined backdrop to patterned accents, Jamie Stern's Kenaston 1957 delivers durability, comfort, and mid-century cool.
