

TWOFOLD - PLANE

Twofold is defined by its embossing, a tone-on-tone technique that gives a single leather a full range of expressions, building depth and pattern into the surface without ever altering its color. Every leather in the collection is available smooth, with a coordinated embossed motif offered as an additional layer of dimension, one color, worn two ways. Built around a set of core colors designed to work across the full Goodrich collection, Twofold makes it simple to bring texture into a project without complicating the palette.
